Considerations

- Are transportation planners and providers at the table from the very beginning in the design of housing and community options?
- Do the accessible mobility options focus on paths of travel AND transportation services?
- Are there any resources (fiscal, staffing, etc.) that can be shared to develop the project?
- Do housing professionals, community planners, economic developers have sustained relationships with transportation services?

Identify Local Resources

- Identify the people/office in your community that coordinate services:
  - Mobility Managers (professionals that identify transportation solutions – put the transportation puzzle together)
  - Metropolitan Planning Organizations
  - Regional Councils
- Learn about whether your region has a Human Services Coordinated Transportation Plan (HST)
